

# Your customers deserve text and mobile messaging.

Email, phone calls, and web chat aren't compatible with today's mobile consumers. Text and mobile messaging is everywhere in society, yet companies haven't had an easy, customizable solution to utilize it for customer service. **Teckst is an enterprise solution that brings two-way text and mobile messaging to customer service teams through seamless integrations with top customer service platforms like Salesforce, Oracle, and Zendesk.**

Custom-Built Systems

## How It Works

1. We text-enable your toll free number(s) & set up your chat apps
2. Our engineers customize and install into your current CRM
3. The Teckst Training Team leads onsite training for a flawless launch
4. Customers love you for texting and being on a channel they prefer
